Comment (optional):

██████████ appeals the denial of this Wetlands Real Property Claim. Appellant contends the parcel in question is within the Claim Zone and is therefore eligible for compensation. The Claims Administrator has denied this claim on several occasions because the property was found not to be within the applicable zone and a review of the relevant map indicates this finding is correct. Additionally, there has been no basis asserted that

would justify adding this parcel to the zone. Accordingly, the denial of this claim was correct and the claimant's appeal is denied.
